

Dear Sir/Madam,

I am writing this letter to introduce myself and to express my motivation for working as an intern at your company.

I am, a student of the Department/Program at İzmir Tınaztepe University. As part of my university's Erasmus+ Traineeship Mobility program, I would like to complete a two-month internship at your university/institution during the summer term. With the Erasmus grant I will receive, I will be able to cover my own accommodation, transportation, and other living expenses.

My education and previous experiences, particularly my knowledge and skills in the field of healthcare, have motivated me to work in an international environment. I believe that an internship at your university/institution will be an important opportunity to enhance my professional skills in healthcare services and to gain new experiences.

During the internship, my aim is to contribute to your university/institution and to learn as much as possible.

My CV is attached for your consideration. Thank you for your attention and evaluation. I look forward to your response at your earliest convenience.

Sincerely,

Name – Surname
